Funded by: Leventio Municipal Museum

Partners:

University of Cyprus, Leventio Municipal Museum

Participants:

Dr Yiorgos Chrysanthou
Projects

Project website: Leventio Museum

Abstract: During this project two interactive installations were created and placed on permanent display in the Leventio Museum. One installation is a high-fidelity image of the walled city of Nicosia over the centuries, and the other is a VR system allowing a walkthrough of different parts of the Town in the 19th century.

Tonemap: High fidelity images for a VR system with application to military training.

Cyprus Research Promotion Foundation, 2005-2007

Partners: Cyprus Ministry of defense, Intercollege, UCY, VR Media, University of Bristol

Intuition: Network of excellence on VR and VE applications for future workspaces.
Projects

EU IST, Framework 6, Network of Excellence, 2004-2008

Partners: see project website for extensive list of participants

Abstract: Network of Excellence on Virtual Reality and Virtual Environment Applications for Future Workspaces

KIKIPEZ: Network of excellence on VR and VE applications for future workspaces

Cyprus Research Promotion Foundation, 2005-2007

Partners:
Projects

UCY, Frederick Institute of Technology, The Bartlet (UCL)

Project website: http://www.cs.ucy.ac.cy/~ssotos/kikipez/

Abstract: The aim of the project is to develop novel navigation methods for dense crowd and to complement them with novel animation methods suitable with dense crowd.

Scoliosis: Automatic photogrammetry methods for diagnosis and follow-up

Cyprus Research Promotion Foundation, 2005-2008

Partners:

GeoImaging Ltd, UCY- Computer Science Dept, University of Thessaloniki - Department of Cadastre, Photogrammetry & Cartography
Dr. Thanasis Zavitsanakis, Associate Professor, Aristotle University of Thessaloniki, Private Researcher

CREATE: Constructivist Mixed Reality for Design, Education, and Cultural heritage

EU IST, Framework 5, 2002-2005

Partners:

UCY, University College of London, Realviz, Percro, Foundation of Hellenic World, University of Cyprus
CSTB

Project website: Project Website at UCL

Abstract: The CREATE project (Constructivist Mixed Reality for Design, Education, and Cultural Heritage) aims to develop a platform for the creation of interactive virtual environments. The project focuses on the manipulation of virtual worlds based on real data sources, resulting in experiences that couple realism and interactivity.
